

West Berkshire Green Exchange  
invite you to **A CONFERENCE**  
to find a way towards

# A ZERO CARBON FUTURE FOR WEST BERKSHIRE

Saturday 13th October 2018  
10am - 4pm

at St George's Church, 206 Andover Road, Wash Common, RG14 6NU

Speakers include

**Paul Allen**, Centre for Alternative Technology, Zero Carbon Britain

**Sir Brian Hoskins**, Reading University, Former Chair of the Climate Change Committee

**The Rt Hon Richard Benyon MP**

With Global Warming proceeding at pace and the Climate Change Act requiring an 80% reduction over our 1990's energy use by 2050 we have to start thinking how we change our lives and infrastructure to achieve that drastic change. Investments in housing and other infrastructure made now will still be in use in just over 30 years so those investments need to keep the Act's requirements in mind.

This conference will hopefully depoliticise the issue locally and identify sensible investment decisions for a low carbon future for West Berkshire.

Free refreshments for all and free lunch for those who have booked through Eventbrite  
No charge but a small contribution towards the refreshments would be welcomed

Please book your free ticket through Eventbrite
